WEATHER KEY POINTS

01/26/22 - 02/01/22

Wednesday - Tuesday

- Patchy overnight and morning dense fog will continue through midweek for portions of the Central Valley, deeper northern mountain valleys, and areas along the coast.
- Gusty offshore winds will continue across the southern California mountains and foothills and the Sierra, with gusts of 35 to 50 mph expected through Wednesday morning.
 - Additional rounds of gusty winds are possible Thursday through Saturday across southern California.
- Dry weather is also expected to continue statewide through Saturday. A more active weather pattern with a chance of precipitation is expected Sunday into next week across central and northern portions of the state
